

by

zwype is an alcohol-free advanced multi-surface cleaner and sanitiser that is manufactured to contain one of the fastest acting and most powerful germ-killing products available today, killing 99.999% of bacteria yet contains no irritants within its formulation.

Using the latest Advanced Barrier Technology **zwype** not only provides rapid kill against bacteria and viruses, but provides a residual barrier onto the surface that continues to work after the initial application.

Cleaning is the initial step before disinfection to ensure the best results. Without proper cleaning, dirt and organic matter protect microorganisms against the killing effect of the disinfectant, resulting in an incomplete operation. **zwype** is a very effective biocide, with a combination of surfactants it is one of the few products that will clean and disinfect in one application removing the need for additional chemicals. Using **zwype** in a fogging application will kill bacteria, and other harmful pathogens efficiently with no harmful effects on plants and/or animals in the treated area.

- ✓ Excellent cleaner & sanitiser
- ✓ Kills 99.999% of bacteria
- ✓ Alcohol-free & non flammable
- ✓ Food-safe
- ✓ Contains no irritants and is non-toxic
- ✓ No PPE required
- ✓ Can be used to sanitise medical instruments
- ✓ Ph Level of 6.5- 7.3
- ✓ Halal Certified
- ✓ Fully compliant with EU Biocide Regulations

All our claims are backed up by test reports and case studies by independent microbiologists:

- ✓ Kills Covid
- ✓ Kills 99.999% of bacteria
- ✓ Kills MRSA, E.Coli, Salmonella within 30 seconds
- ✓ Kills Norovirus
- ✓ Kills Fungi & Algae
